PINE TREE STATE SEED COMPANY

W. R. KIMBALL, Proprietor, BATH, MAINE.

PANSY MASTERPIECE, New Giant Curled or Ruffled Pansy.

TO OUR FRIENDS AND PATRONS:

In presenting our Annual Catalogue, we take the opportunity to thank our customers for their patronage in years past. This new list enumerates only the best varieties in each class, and our stocks of all are of the highest grade. We have carefully avoided exaggerated claims of merit, and the reader can be assured that every variety listed has proved with us fully equal to our description of it.

IT IS OUR DETERMINATION to grow and distribute nothing but the VERY BEST SEEDS that IT IS POSSIBLE TO PRODUCE.

It is our constant aim to make HIGHEST QUALITY A FIRST CONSIDERATION, and then make our PRICES AS LOW AS GOOD, HONEST SEEDS CAN BE SOLD FOR. OUR PRICES, THERE-

1904

BARGAIN CATALOGUE

RELIABLE FLOWER AND VEGETABLE SEEDS

BULBS, HARDY SHRUBS,
ROSES and BEDDING PLANTS.

FORE, will in all cases be as LOW as those of any other RELIABLE HOUSE for seeds of the highest standard of excellence.

The market price on some varieties of seeds this season is a little higher than usual, but our prices on all seeds are as low as the market permits. Not as low as the price on poor seeds; they are not our competitors, good seed cannot cost less than we ask you. Skimping on seed prices is poor economy. We offer you only the well-known Standard varieties and those which are most valuable of their kind for this climate.

Please do us the personal favor of examining this price list carefully, and should you favor us with an order either large or small, the same will be greatly appreciated and receive our prompt and careful attention.

This year we offer you free a fine list of magazines to select from and trust you will appreciate it. See announcement elsewhere in this catalogue.

Per pkt., 10c; oz. 25c.

NEW LETTUCE, GIANT GLACIER.—A most excellent variety to plant for a summer supply, as it withstands heat and drought. It produces fine, solid heads with large, light green outer leaves which fold closely about the head, the interior leaves blanch to a snowy white and are always

crisp and tender and never bitter. Packets only, per pkt., 10c.

LETTUCE, WONDERFUL.—One of the best recent introductions. A very large-growing variety, solid heads, good quality, crisp and tender. The heads stand for a long time before running to seed. The largest and best of all cabbage lettuce. Per pkt., 10c; oz., 25c.

Hybridized Potato Seed.

I have the pleasure of offering a very choice strain of Potato Seed—the product of numerous hybridizations between many of the best new and old varieties in cultivation. Growing new sorts from the seed-ball seed is a very interesting employment for old or young. There is the widest range of difference in color, shape and general characteristics between the different seedlings; every one is more or less unlike every other. Great success has already attended the attempt to improve this valuable esculent, and the end is not yet—many varieties will yet be found which will bring a golden harvest to the fortunate growers, and prove of inestimable value to the world.

Directions for planting, cultivating, etc., on each pkt.

Price, 10 cts. per pkt., 3 for 25 cts.; 7 for 50 cts. From E. A. Goodspeed, Onon County, N. Y., August 31st: I have got a grand new seedling potato from your seed, and have raised 400 bushels. A prominent seedsman wants to introduce them and is trying to buy me out. I have six more seedlings that are more than good.
